Lastly, we would really appreciate a picture of your child and/or a picture of the happy family. In fact, we have a number of ideas regarding the utilization of these photographs and a possible story outlining your difficult journey (see the following page).

Sometimes we simply place the pictures in our digital frames. You may recall how optimistic you felt when viewing beautiful pictures in the office. Occasionally, we use the pictures for research, and with permission, publications and promotions. Thank-you cards are often placed out in the front lobby for all patients to read. We have been told that they helped others secure hope during difficult times.

With your permission, we would like to expand our web site to include some of the photographs and stories of the families we became so close to. If you are willing, we would like to share your story on the web. If you would like to have your journey told, please include your story with your pictures and sign the enclosed consent. Your words of wisdom, humor and encouragement may help other couples achieve their goals.

We reserve the right to modify any story that you submit for grammatical corrections and/or length. Due to space constraints, we may not be able to publish all stories.

Lastly, if you have your own personal web page or a business web page that you would like to have listed with your story, please include these links. We will try to notify you of the final publication of your story.

Our greatest personal reward was earning your trust, confidence and respect. It was wonderful taking care of you!
