

Prepayment Of All Insemination Procedures Now Required

All IUI patients need to call in and receive an “IUI Identification Number” (IUI-ID). When you call with a color change, you will be asked for this IUI-ID number, so please have this available for the front office and medical staff on call. The IUI-ID number will be different for each insemination procedure.

Please call by cycle day five (5) for each month you plan on having the IUI performed to prepay and to obtain your unique IUI-ID number.

The IUI-ID number is especially important for weekend and holiday insemination procedures.

If you don't have an IUI-ID number, the IUI procedure will not be performed.

It has become necessary for SRMS to obtain prepayment for all insemination procedures that are not covered by your insurance company. Please contact the office to prepay and obtain your unique IUI-ID number.

Thank you.
