Superovulation-IUI *Price List (2012)*

General:

Unless your insurance covers Superovulation/intra-uterine insemination (IUI) procedures, it is the policy of SRMS that all patients pre-pay for their procedures. The amount of \$1,731.00 is required prior to the initiation of any superovulation cycle. Please discuss any financial concerns you have with the front office regarding these requirements.

Discount Now Available:

As a courtesy to our patients, SRMS is now offering a special plan for those patients who prepay for **three or more** Superovulation/IUI cycles. This plan is only open to those patients who have the Superovulation/IUI procedures listed as uncovered services by their insurance company. The advantages of the plan include:

- 10% discount on the specific Superovulation/IUI SRMS charges including endocrine testing, physician visits, ultrasound procedures, semen preparations and the IUI procedures themselves
- Reduced check-out time

Program Breakdown:

In general, the fees associated with a Superovulation/IUI cycle are separated into medications purchased outside of the practice and those services/procedures offered here at SRMS. *Below is a summary of a single superovulation/IUI cycle:*

Prepaid Package:

The probable total cost before discount for each Superovulation/IUI cycle is estimated at \$1,731.00 with an estimated total of \$5,193.00 for three cycles. The total cost for three *discounted* cycles would be \$4,673.70, an estimated **savings of \$519.30**. The prepaid fees are due on the day of the first cycle baseline ultrasound.

No discount is available on medications as these fees are paid directly to the pharmacy.

Cancellation Policy:

Any of the unused prepaid charges will be refunded to the patient upon request.

Changes In Fees:

The incurred costs estimated here are not guaranteed. Individual variability often results in an unpredictable number of ultrasounds, blood tests and medication vials administered. All fees listed here are subject to change without notice.

Fees Billed In Excess Of Prepayment:

Any fees charged beyond the prepayment plan will be billed at normal and customary fees without the 10% discount and will be due at the time of service. If the superovulation/IUI process requires fewer visits and practice resources, the patient will have a credit balance due and SRMS will refund accordingly.
